## INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/FI 03/00179

I.	<b>Basis</b>	of the	report
----	--------------	--------	--------

1. With regard to the **elements** of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	De	scription, Pages			
	1-1	8	as originally filed		
•	Cla	ims, Numbers			
	1-1	9	as originally filed		
	Dra	awings, Sheets			
	1/1		as originally filed		
2.	With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.				
	The	ese elements were av	vailable or furnished to this Authority in the following language: , which is:		
		the language of a tr	anslation furnished for the purposes of the international search (under Rule 23.1(b)).		
		the language of pub	lication of the international application (under Rule 48.3(b)).		
		the language of a transled 55.2 and/or 55	anslation furnished for the purposes of international preliminary examination (under .3).		
3.	Witl inte	h regard to any <b>nucl</b> e rnational preliminary	eotide and/or amino acid sequence disclosed in the international application, the examination was carried out on the basis of the sequence listing:		
		contained in the inte	ernational application in written form.		
		filed together with th	ne international application in computer readable form.		
		furnished subseque	ntly to this Authority in written form.		
		furnished subseque	ntly to this Authority in computer readable form.		
		The statement that t in the international a	the subsequently furnished written sequence listing does not go beyond the disclosure application as filed has been furnished.	Э	
		The statement that the listing has been furn	he information recorded in computer readable form is identical to the written sequenc ished.	е	
١.	The	amendments have r	esulted in the cancellation of:		
		the description,	pages:		
		the claims,	Nos.:		
		the drawings,	sheets:

#### INTERNATIONAL PRELIMINARY **EXAMINATION REPORT - SEPARATE SHEET**

#### Re Item V

Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Electrostatic coating of a fibrous continuous web like paper with a coating powder 1. comprising inorganic material and polymeric binder and surface finishing the so coated web is described in the following documents:

D1: EP-A-0 958 865

D2: EP-A-0 982 120 (cited on page 1 of the description of the present application)

D3: GB-A-2 056 885

In other words, the preamble of independent claims 1, 10, 14 is known in the art.

1.1 According to page 6, lines 37-42 of D1 the powdery coating composition contains 0.5 to 15% of a white colorant (titanium dioxide) or colourless filler.

D2 discloses, see page 5, lines 31 to 35 a white colorant (titanium dioxide) contained in the powdery coating composition in an amount of from 0.5 to 60% by weight.

D3 discloses coating powders with 10-80 parts titanium dioxide (see page 3, lines 30-46.

Therefore, the subject-matter of claims 1, 10, 14 is not novel (Article 33(2) PCT).

Dependent claims 2-9, 11-13, 15-19 do not appear to contain any features which, 2. in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step, because said features are explicitly or implicitly disclosed in the cited prior art.
